

Road To Recovery®

Use your drive for good.

Change lives one ride at a time.

What's often standing between people with cancer and lifesaving treatment is a ride to get there. And we need you now more than ever.

The American Cancer Society provides free rides to treatment for people with cancer. As a trained volunteer driver, you can change someone's life in as little as one hour a week by ensuring a ride is available, so care isn't stopped or delayed.

Connect with us at cancer.org/drive to learn more about Road To Recovery volunteer opportunities in your area.
